# In-Slip vessel monitoring At your marina

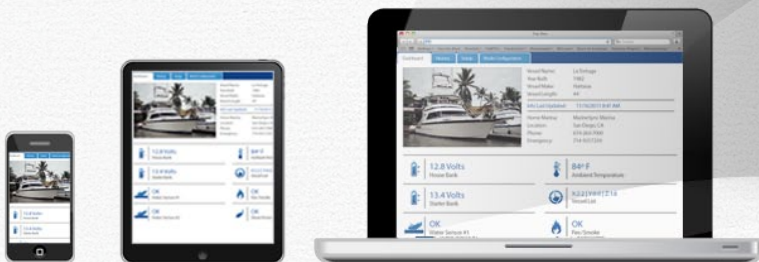

**MS2 Vessel Monitoring** is a service, offered by Marinas to their boaters. MS2 provides boaters with remote access to their vessel's on-board conditions from any web-enabled device. Expand your onsite amenities while providing an affordable and practical services for boaters.

"MS2 Vessel Monitoring offers more than basic security at the marina. Boaters have true peace of mind and feel more confident about being away from their vessels with vessel notifications. Tenants have received timely notices to prevent a vessel sinking as well as notifications of a vessel leaving the marina." - Kathy O'Brien, Sun Harbor Marina, San Diego, CA

## Anytime, Anywhere

Whether your boat owners live down the street or in a different state, MS2 Vessel Monitoring provides 24/7 access to their floating investments. Critical onboard conditions such as battery voltage, temperature, bilge, and onboard safety systems are all available online.

A screenshot of a web browser displaying the MS2 Vessel Monitoring interface. The page has a blue header with navigation tabs: Dashboard, History, Setup, and Node Configuration. The main content area is divided into several sections. On the left, there is a photo of a white boat docked. To the right of the photo, vessel details are listed: Vessel Name: La Tortuga, Year Built: 1982, Vessel Make: Hattaras, Vessel Length: 44'. Below this, it says 'Info Last Updated: 11/16/2011 8:41 AM'. Further down, home marina information is provided: Home Marina: MarineSync Marina, Location: San Diego, CA, Phone: 619-269-7000, Emergency: 714-9317339. The bottom half of the page features a grid of monitoring widgets. Each widget has an icon and text: '12.8 Volts House Bank' (battery icon), '84° F Ambient Temperature' (thermometer icon), '13.4 Volts Starter Bank' (battery icon), 'X:2.2 | Y:0.0 | Z:1.8 Vessel List' (circular icon), 'OK Water Sensor #1' (water drop icon), 'OK Fire/Smoke' (flame icon), 'OK Water Sensor #2' (water drop icon), and 'OK Shore Power' (plug icon).

## Staying Connected Has Never Been Easier

MS2 Vessel Monitoring is a safeguard, immediately notifying vessel owners and their subscribers when their vessel requires attention. MS2 can also be configured to notify the marina personnel if an immediate response is required.

90%  
of a vessel's life is  
spent in its slip

## Advanced Technology, New Approach

Vessel related incidents are most likely to occur in-slip, where boats are unattended and vulnerable. MS2 provides monitoring coverage throughout your marina utilizing stand-alone, high-powered radio technology. This approach ensures the highest level of reliability, control and uptime.

## Sustainable Revenue

Your marina has the flexibility to set a monthly fee and bill directly for monitoring service. Monitoring fees create new and sustainable revenue for the marina without the need to hire additional personnel. MS2 Vessel Monitoring can also be a great tool for expanding and complimenting your service/maintenance business.

## Tangible Value

MarineSync includes full marketing and sales support to maximize your revenue. With unmatched technical support to ensure its success. Your marina can offer MS2 Vessel Monitoring with little to nothing out of pocket.
